Worldwide Clinical Trials | Oncology

Accelerating Early Phase Oncology Development

Early phase oncology trials demand specialized expertise in Project Optimus-aligned study designs, efficient cohort management, and the agility to adapt quickly to emerging data and protocol amendments.

With over 70% of our active oncology portfolio dedicated to Phase I/II and first-in-human (FIH) studies and supported by our global Phase I oncology alliance sites, Worldwide Clinical Trials is uniquely positioned to help sponsors accelerate into the clinic and achieve key proof-of-concept milestones.

Challenges in early phase oncology trials

- Increasingly complex study designs
- Earlier dose optimization requirements
- Access to more diverse patient populations
- Coordination of global cohort management, dose escalation, and expansion
- Large global footprint required
- Greater upfront financial investment required

Worldwide's early phase oncology expertise

Scientific & Development Expertise

- Collaborative, multidisciplinary oncology teams
- Fluency with Project Optimus
- Expertise operationalizing biomarker-driven trials
- Drug development consulting
- Supporting asset development through proof-of-concept (PoC)

Operational Excellence

- Flexible, agile approach for small biotechs
- Global start-up, regulatory, and project management expertise

Site Experience

- Early phase alliance with 20+ sites across the U.S., U.K., Spain, and Australia

Study Experience

- >70% of active oncology portfolio is early phase
- 100+ early phase studies

What Sets Us Apart

Biotech Mindset Delivered Worldwide

We are purpose built around a biotech mindset that shapes both our partnership philosophy and delivery model, bringing the agility, responsiveness, and focus needed to meet critical oncology development milestones.

Oncology Expertise and Team Continuity

Oncology expertise is embedded across all functions, ensuring studies are led by professionals who understand the complexities of oncology science and trial execution. With an average of 11+ years of oncology experience across key roles and an industry-leading 90%+ retention rate in the oncology business unit, you can expect a seasoned, specialized team supporting your study end to end.

Flexible solutions & best-in-class technologies

Data-centric approach with visual analytics & clinical science

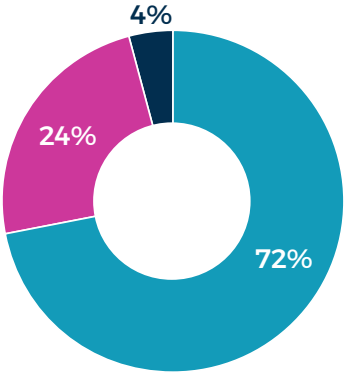

Site relationships with rapid startup

Global footprint: 4,000+ across NA, EU, LATAM, MENA & APAC

Active Next-Gen Oncology Experience

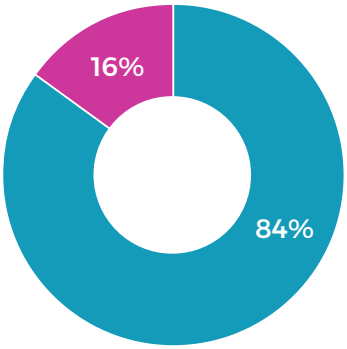

Operating both locally and globally across Phases I through III in a range of solid tumor and hematologic indications, we understand the nuances of complex study designs, novel endpoints, and cutting-edge modalities.

Phase

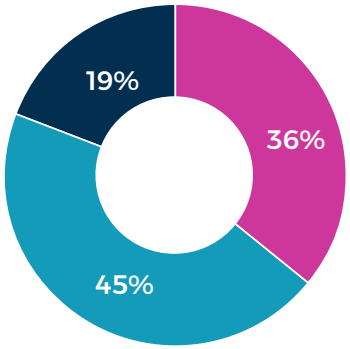

Early Phase · Late Phase · Observational/LTFU

Indication

Solid · Heme

Drug Class

Immuno-Oncology · Other · Targeted Therapy

Worldwide Clinical Trials

Oncology at Worldwide

Worldwide features a dedicated oncology business unit within our full-service global contract research organization. We partner with biopharmaceutical sponsors to deliver expert-led, globally scalable oncology trials across every phase of development. We help sponsors move fast with confidence and scale without disruption.
