

# Helping Bring Cancer Therapies to Patients

Worldwide Oncology is a niche Oncology CRO devoting time, energy, and capital to supporting biotechs in bringing next-generation therapies to cancer patients in need. Oncology clinical research is complex, demanding, and continually evolving. Bringing effective therapies from proof-of-concept to market as fast as possible is our mission because every second counts for patients and their families living with cancer.

## Exclusively Biopharma-Focused

Built to work exclusively with biopharma, our flexible processes and approach allow us to listen first, align goals, and execute with an eye to rapid shifts when protocols amend or breakthrough designations move a product straight from Phase I to registration.

## Seasoned Oncology Experts

With an average of 9+ years of oncology experience for key roles (PM, CTL, DM, and Clinical Science), our oncology specialty guarantees you a seasoned team across all functions.

## A Transparent People-First Culture

We are responsive and attentive to the needs of both our customers and staff. Our industry-leading employee and project team retention guarantees program continuity, increased efficiency, and happy investigative sites.

Role	Industry Experience*	Oncology Experience*
Project Manager	17 years	10 years
CTM/CRA	17 years	10 years
Medical Monitor	20 years	20 years
Safety Specialist	11 years	9 years
Clinical Scientist	21 years	13 years
Data Manager	18 years	9 years
Biostatistician	16 years	6 years
*Average Experience		

## Active Next-Gen Oncology Experience

Working across all phases of clinical development and a range of both solid and hematologic indications, we understand the nuances of complex study designs, novel endpoints, and cutting-edge technologies.

## Oncology-Specific Differentiators

### Flexible Solutions & Best-in-Class Technologies

- Full-service, resourcing, and FSP options
- Technology-enabled investments
- Partnerships to leverage recent industry breakthroughs

### Site Network Model

- Centralized Site Services team
- Streamlined site interactions to reduce site burden
- Rapid site activations
- Next-gen site network

### Data-Centric Approach

- Cross-functional oncology approach to quality data
- Proprietary clinical analytics platform
- 70% oncology forms and 120+ standard displays for rapid database deployment and protocol-specific analysis

### Emerging Targeted & Immuno-Oncology Focus

- Complex study designs and endpoints
- Targeted therapies: biomarker and NGS selection
- IO: bispecifics, gene therapy, and cellular therapy
- Experience in CAR T since 2015

## About Worldwide Clinical Trials

Worldwide Clinical Trials (Worldwide) is a global CRO serving development-driven biopharmaceutical companies, with more than 4,400 professionals operating across more than 70 countries. The company delivers therapeutically dedicated expertise in neuroscience, oncology, rare disease, and internal medicine, with comprehensive support across every development phase - from early-stage and first-in-human studies through Phase III registration trials.

The company's flexible service model - spanning full-service trial management to functional service partnerships through Worldwide Flex - is powered by a people-first, partnership-driven outsourcing approach that strengthens collaboration, enhances data transparency, and supports more informed decision-making. This provides sponsors with tailored, adaptable solutions that keep pace with the evolving demands of clinical research.
