

Start Fast. Scale Seamlessly.

Oncology Clinical Trial Excellence Delivered Worldwide

Helping biopharma sponsors bring promising oncology therapies to patients faster – from first-in-human through approval.

Worldwide Clinical Trials partners with biopharma sponsors to launch complex oncology trials with speed and scientific rigor, then scale confidently across phases and geographies – without sacrificing timelines, data quality, or oncology specialization.

This is enabled by oncology-embedded expertise, continuity across teams, data, and oversight, and right-sized agility that supports fast decision-making without unnecessary layers.

How We Deliver

Exclusively biopharma

Built exclusively for small to midsize biopharma sponsors, with direct access to senior leadership.

Oncology-experienced project teams

800+ oncology designated staff across all functions, with 5+ years minimum oncology experience required for key roles.

Team continuity

90%+ project team retention ensures continuity, efficiency, and consistent execution across the study lifecycle.

Global operational excellence

4,400+ staff across 70 countries in NA, EU, MENA, LATAM, and APAC, delivering industry benchmarked startup speed and reliable execution.

Flexible solutions & best-in-class technologies

Full service, hybrid, and FSP models supported by scalable, oncology-ready technologies that adapt as programs evolve.

Data centric approach enabling data informed decisions

Proprietary, oncology-built clinical analytics enable expert-led safety review, efficacy, and key milestones at every stage.

Global Oncology Experience

Spanning early to late phase oncology clinical development, Worldwide brings expertise across a range of solid tumor and hematologic indications as well as key therapeutic modalities.

Indication Specialties

- Solid Tumors (Bladder, Breast, Head & Neck, Lung, Melanoma, Ovarian, Pancreatic)
- Hematologic Malignancies
- Rare Oncology

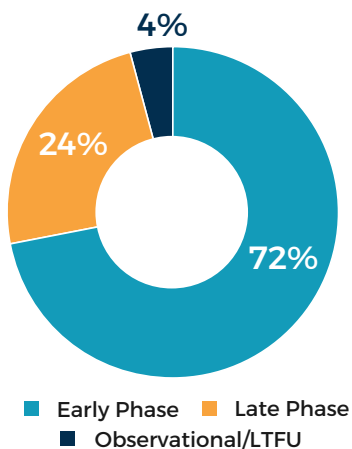

Therapeutic Modalities

- Targeted Therapies
- Antibody-Drug Conjugates (ADCs)
- Immuno-Oncology (IO)
- Cell & Gene Therapy (CGT)

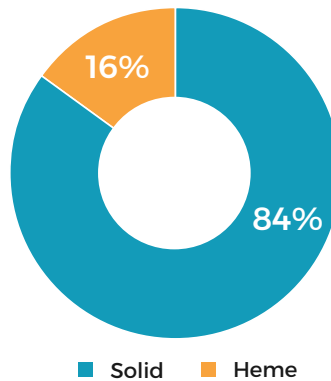

Full-Service Experience at a Glance

- **170+** active oncology studies
- **4,400+** staff
- **70+** countries
- **90%+** retention in oncology project teams
- **Top 15%** in industry for start-up speed
